

melbourne **period project**

The hope of the Melbourne Period Project is to provide care, support and sanitary products for homeless women. Our products are all donated by the general public of Melbourne and surrounds and are packaged into five separate packs that incorporate all of the sanitary needs required by homeless people this includes items such as sanitary pads, tampons, wipes and hand sanitiser.

We have five separate organisations that we deliver to who are all registered charities and work directly with homeless people. They are

Anonymous X
One Voice
Homeless of Melbourne
Women's Housing
Melbourne Tautoko Whanau

In all, we support approximately 600 women. Currently, we never have enough to go around for everyone but what we do have makes a huge difference to these women. We hope to increase our presence to such a point that no homeless woman ever has to worry about where she will get sanitary products from ever again.

Homeless women currently use a variety of unsuitable items which increase the risk of infection and don't protect clothing, nor are they comfortable. It is our hope that no one ever need feel the pain and humiliation of a homeless period ever again.

We are sincerely grateful to any organisation who can help us increase supply of our packs to homeless women by way of donation.

We thank you for considering our cause.

Warm regards,

The Melbourne Period Project Team
